

## Mount Charles School Council

The School Council have been thinking about some of the projects we would like to work on. The councillors have taken photos of four things that we would like to make a start on.

### 1. Buddy Bench

This is where we plan to put our new buddy bench. This is where we can go if we are lonely and would like someone to play with. We are going to make it colourful and welcoming.

### 2. Children in Need

"Hello I am Pudsey ,I am the bear of children in need .I will comfort you when you're ill and I will be with you every step on your journey!" This year the school council will be raising money for children in need by organising lots of fun events at school.

## Mount Charles School Council

### 3. School Field

We take pride in our school field, we play sports and do P.E on it. We want to get everyone on there at lunch and break to run around and have fun. This picture shows our field from the entrance down.

### 4. Playground Markings

One of the things we are going to do as a school council is to organise some fun playground markings to go with our new playground equipment.
